Subject index

A

Amputees
Nursing's role with amputee support groups (Jacobsen). 1998;16:31-4

Angiography
Alternative imaging techniques in vascular surgery (Verta and Verta). 1998;16:78-83

Aortic aneurysm, abdominal
An empirical study of nursing in patients undergoing two different procedures for abdominal aortic aneurysm repair (Kozon et al). 1998;16:1-5

Arterial occlusive diseases
Impact of intravascular ultrasonography in the endovascular management of aortoiliac occlusive disease (Lee et al). 1998;16:57-61

B

Bandages
Warm-up active wound therapy: a novel approach to the management of chronic venous stasis ulcers (Robinson and Santilli). 1998;16:38-42

C

Caregivers
The stroke patient and assessment of caregiver needs (Dorsey and Vaca). 1998;16:62-7

Cerebrovascular disorders
The stroke patient and assessment of caregiver needs (Dorsey and Vaca). 1998;16:62-7
Stroke prevention screening program (Bahle). 1998; 16:35-7

ClinCare; *see* **Patient care team**

Clinical nurse specialists; *see* **Nurse clinicians**

Cost-benefit analysis
ClinCare: improving vascular outcomes through clinical care coordination (Isler). 1998;16:45-7
Vascular nurse practitioner: development of an innovative role for the 21st century (Fitzgerald). 1998;16:87-92

D

Diagnostic imaging
Alternative imaging techniques in vascular surgery (Verta and Verta). 1998;16:78-83

E

Education, patient; *see* **Patient education**

F

Factor V
Factor V Leiden mutation: a nursing perspective (Page). 1998;16:73-3

Femoral artery, transplantation
Polytetrafluoroethylene femorodistal grafts: Can the use of a vein collar offer patients a reasonable chance of success? (Parkinson et al). 1998;16:6-10

H

Heat
Warm-up active wound therapy: a novel approach to the management of chronic venous stasis ulcers (Robinson and Santilli). 1998;16:38-42

Hospitals, private
Incidence of thrombosis in pregnancy and postpartum: a retrospective review in a large private hospital (Olson and Nunnelee). 1998;16:84-6

I

Iliac artery
Impact of intravascular ultrasonography in the endovascular management of aortoiliac occlusive disease (Lee et al). 1998;16:57-61

Intravascular ultrasonography; *see* **Ultrasonography, intravascular**

L

Leg ulcer
Experience with a new human skin equivalent for healing venous leg ulcers (Fahey). 1998;16:11-5
Nutrition, tissue oxygenation, and healing of venous leg ulcers (Wipke-Tevis and Stotts). 1998;16:48-56

Leiden mutation; *see* **Mutation**

M

Magnetic resonance imaging
Alternative imaging techniques in vascular surgery (Verta and Verta). 1998;16:78-83

Mass screening
Stroke prevention screening program (Bahle). 1998;16:35-7

Mutation
Factor V Leiden mutation: a nursing perspective (Page). 1998;16:73-7

N

Nurse clinicians
ClinCare: improving vascular outcomes through clinical care coordination (Isler). 1998;16:45-7

Nurse practitioners
Vascular nurse practitioner: development of an innovative role for the 21st century (Fitzgerald). 1998;16:87-92

Nursing assessment
An empirical study of nursing in patients undergoing two different procedures for abdominal aortic aneurysm repair (Kozon et al). 1998;16:1-5

Nutrition
Nutrition, tissue oxygenation, and healing of venous leg ulcers (Wipke-Tevis and Stotts). 1998; 16:48-56

O

Oxygen
Nutrition, tissue oxygenation, and healing of venous leg ulcers (Wipke-Tevis and Stotts). 1998; 16:48-56

P

Pain
Reflex sympathetic dystrophy syndrome: an update (Faria and Flannery). 1998;16:25-30

Patient care team
ClinCare: improving vascular outcomes through clinical care coordination (Isler). 1998;16:45-7

Patient compliance
Impact of telephone reinforcement of risk reduction education on patient compliance (Racelis et al). 1998;16:16-20

Patient education
Impact of telephone reinforcement of risk reduction education on patient compliance (Racelis et al). 1998;16:16-20

Polytetrafluoroethylene
Polytetrafluoroethylene femorodistal grafts: Can the use of a vein collar offer patients a reasonable chance of success? (Parkinson et al). 1998;16:6-10

Postpartum period; *see* **Puerperium**

Pregnancy complications, hematologic
Incidence of thrombosis in pregnancy and post partum: a retrospective review in a large private hospital (Olson and Nunnelee). 1998; 16:84-6

Preventive medicine
Stroke prevention screening program (Bahle). 1998;16:35-7

Private hospitals; *see* **Hospitals, private**

Puerperium
Incidence of thrombosis in pregnancy and postpartum: a retrospective review in a large private hospital (Olson and Nunnelee). 1998;16:84-6

Q

Quality of health care
ClinCare: improving vascular outcomes through clinical care coordination (Isler). 1998;16:45-7

R

Reflex sympathetic dystrophy
Reflex sympathetic dystrophy syndrome: an update (Faria and Flannery). 1998;16:25-30

Rehabilitation
The stroke patient and assessment of caregiver needs (Dorsey and Vaca). 1998;16:62-7

S

Screening; *see* **Mass screening**

Skin
Experience with a new human skin equivalent for healing venous leg ulcers (Fahey). 1998;16: 11-5

Social support
Nursing's role with amputee support groups (Jacobsen). 1998;16:31-4

Specialties, nursing
Vascular nurse practitioner: development of an innovative role for the 21st century (Fitzgerald). 1998;16:87-92

Stroke; *see* **Cerebrovascular disorders**

Surgery, operative
An empirical study of nursing in patients undergoing two different procedures for abdominal aortic aneurysm repair (Kozon et al). 1998; 16:1-5

Surgical equipment
Polytetrafluoroethylene femorodistal grafts: Can the use of a vein collar offer patients a reasonable chance of success? (Parkinson et al). 1998;16:6-10

T

Telephone
Impact of telephone reinforcement of risk reduction education on patient compliance (Racelis et al). 1998;16:16-20

Thromboembolism
Factor V Leiden mutation: a nursing perspective (Page). 1998;16:73-7

Thrombosis
Incidence of thrombosis in pregnancy and postpartum: a retrospective review in a large private hospital (Olson and Nunnelee). 1998;16:84-6

Tissue oxygenation; *see* **Oxygen**

Tomography scanners, x-ray computed
Alternative imaging techniques in vascular surgery (Verta and Verta). 1998;16:78-83

U

Ultrasonography, intravascular
Impact of intravascular ultrasonography in the endovascular management of aortoiliac occlusive disease (Lee et al). 1998;16:57-61

V

Varicose ulcer
Experience with a new human skin equivalent for healing venous leg ulcers (Fahey). 1998;16: 11-5
Nutrition, tissue oxygenation, and healing of venous leg ulcers (Wipke-Tevis and Stotts). 1998;16:48-56
Warm-up active wound therapy: a novel approach to the management of chronic venous stasis ulcers (Robinson and Santilli). 1998;16:38-42

Vascular nurse practitioners; *see* **Nurse practitioners**

Vascular surgery
Alternative imaging techniques in vascular surgery (Verta and Verta). 1998;16:78-83

Vein collar; *see* **Surgical equipment**

W

Warm-up therapy; *see* **Heat**

Wounds and injuries
Reflex sympathetic dystrophy syndrome: an update (Faria and Flannery). 1998;16:25-30
Warm-up active wound therapy: a novel approach to the management of chronic venous stasis ulcers (Robinson and Santilli). 1998;16:38-42
